SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Mavericks Surf Competition:

- On Friday 02/12/16 the Mavericks Surf Competition will be held, this is one of the premier surf competitions in the world, drawing top surfers from all countries.
- The surfing event is a one-day invitation-only competition held at the legendary Mavericks surf break near Half Moon Bay, about 20 miles south of San Francisco.
- The 24-surfer field from around the globe got the call Tuesday afternoon and will now get to the Northern California coast by Friday.
- NWS is predicting waves between 13 and 14 feet. But the waves could reach up to 25 to 30 feet, with the occasional breaker hitting the 35-foot mark. The contest was last held in 2014.
- There are currently no requests for assistance and no planned EOC activations, San Mateo will be monitoring
- [There is an ICP set up near Pillar point that will include a water and USCG air ops function just in case a rescue is needed.](#)
- [People should expect no access to the beach or roads to the beach. If you want to watch the event, it will be streamed.](#)

SITUATION SUMMARY

Weather of Concern

Northern California

- Large swell conditions are expected along the entire coast from Sonoma to Monterey Counties. Locations such as Pillar Point near Half Moon Bay, San Francisco Bar and Carmel Point will see excessively large breaking waves reaching 20 to occasionally 30 feet in height.
- Warm spring-like weather is expected to continue for the Presidents' Day Weekend through next Tuesday.
 - Confidence continues to increase for a storm system to reach portions of Northern California by next Wednesday and Thursday.
 - This storm will likely begin with high snow levels and gusty winds on Wednesday, followed by cooler temperatures and snow levels to drop to around 5000 feet Wednesday night and Thursday.
- If you are planning travel over the Sierra next Wednesday or Thursday, be aware of possible winter conditions and traffic delays.

Southern California

- Dense fog will make travel hazardous on roadways including highways 1, 101 and state route 246.
- Surf will build to 8 to 12 feet early today, then peak at 10 to 15 feet with local sets to 18 feet tonight through Saturday evening. Surf will begin to subside Saturday night and early Sunday.
 - Additional beach erosion will be possible, especially on the Central Coast.
 - Dangerous rip currents and sneaker waves can also be expected.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

A cold front is expected to come ashore early this morning, with light rain spreading inland in the afternoon. A warm front will then spread rain to the coast late Saturday with rain moving inland Saturday night into Sunday.

Eureka weather:

Mostly dry and warm conditions will continue through Tuesday, with the exception of periods of light rain today and Sunday in areas north of Cape Mendocino. Chances for more significant rain and a return of colder temperatures are expected by the middle of next week.

Reno Weather:

Above average temperatures along with light winds under high pressure will persist into early next week. Mid and high clouds will stream across the region periodically. A moderate winter storm is possible for Wednesday and Thursday next week with gusty winds, rain and mountain snow.

Sacramento Weather:

Dry weather pattern expected to continue for interior northern California through early next week with well above normal temperatures. A wetter pattern returns for the middle and end of next week with daytime highs back down closer to normal.

San Francisco Weather:

Dry weather will continue through the weekend and into Early next week. Cooler conditions are forecast for Friday and Saturday, with warming then expected for Sunday and Monday. Large long period westerly swell will continue to impact the coast through Saturday, creating hazardous conditions at area beaches, including sneaker waves.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

High pressure will continue to bring dry weather to the central California interior through Tuesday with patchy night and morning fog in the San Joaquin valley. A storm system is forecast to move into the area next week with showers and wintry weather expected in the mountains by midweek.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

An upper level trough passing to the north will provide brief cooling to the region by Saturday. High pressure aloft building in from the west and a return of offshore winds will allow temperatures to rebound to near record territory by Monday. A second more significant area of low pressure should bring a chance of precipitation to the forecast area later this week.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

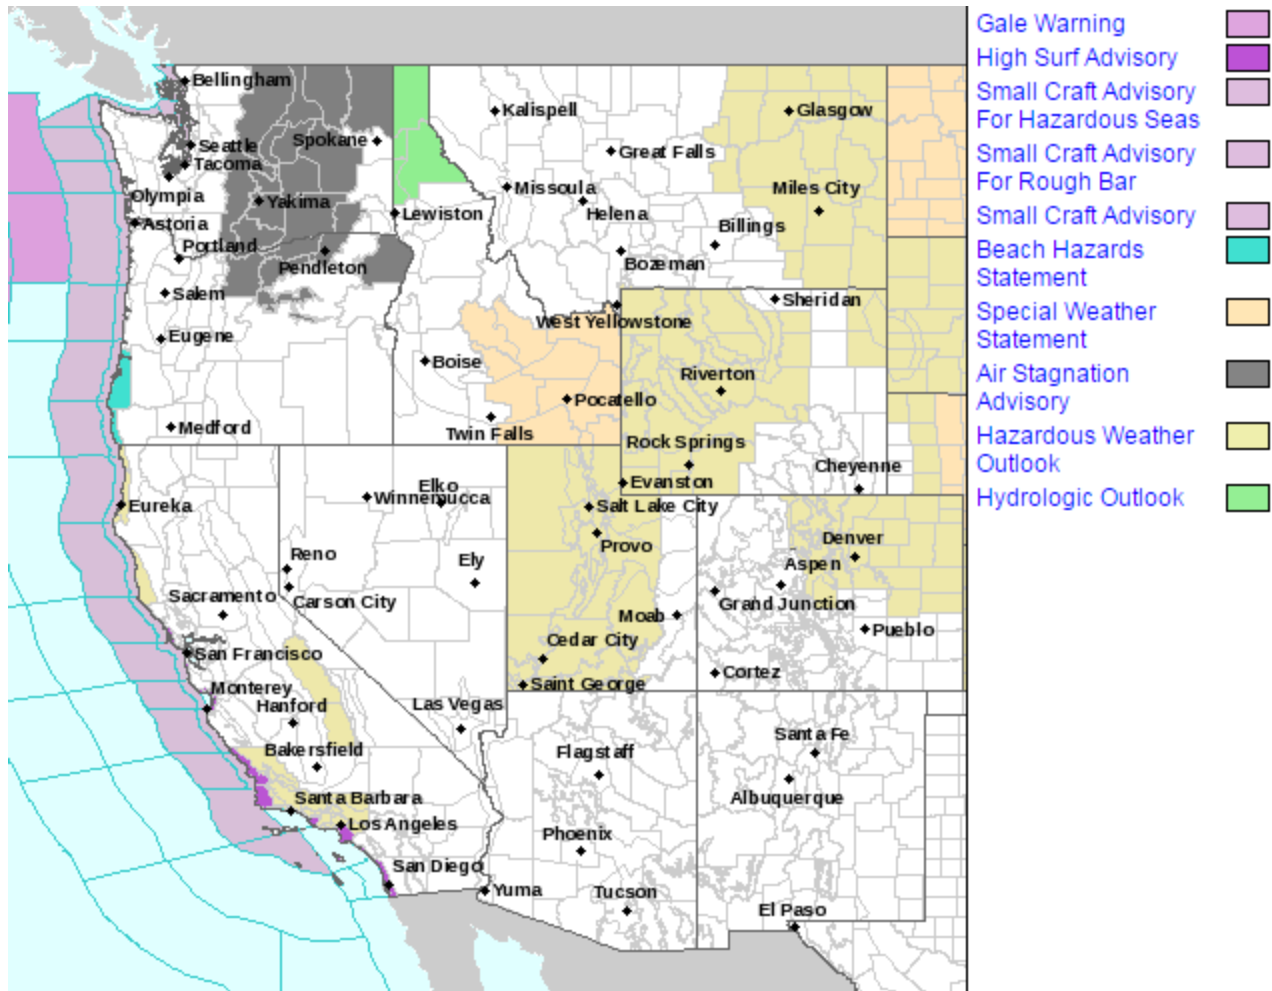

Fair and slightly cooler weather is expected today and Saturday. Some fog could touch the coast early Saturday. High pressure aloft and offshore flow will develop Sunday and peak Monday, bringing warmer weather and Santa Ana winds. Cooler weather and increasing clouds Wednesday will lead to a chance of showers Thursday as a low pressure trough moves through California.

Southeast California Weather:

Warm and dry conditions will continue across the region through early next week. The next chance for precipitation comes late next week as a storm system moves through the area.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

CAL OES MISSIONS

New Cal OES Missions

- **2016-LAW-21364 02/11/16, 1449 hrs.**, San Benito Sheriff's Office (SBSO) is requesting a single HRD K9 Team for Friday morning to search an undisclosed residence near Hollister for possible human remains related to a homicide. Update: 1840 hrs., Cal OES Law Branch K9 coordinator confirmed a HRD K9 team from Santa Clara was secured. The team will meet SBSO Officials at 0600 hrs. Friday for a briefing. **Mission Ongoing.**

Ongoing Cal OES Missions

- **2016-LAW-21318, 02/10/16, 1300 hrs.**, Butte County Sheriff's Office (BCSO) is requesting resources to assist in locating a missing person. M/P is a M/Black/Medium built 28 y/o. M/P was reported missing on 02/05/2016. BCSD located M/P shoes and belt near the lake shoreline. BCSO is requesting (2) HRD search dog teams, (2) Water HRD search dog teams and a boat, operator with side scan sonar or tow fish to assist in locating M/P. California Governor's Office of Emergency Services, Law Enforcement Branch is Coordinating the search dog team response. Update: 02/10/16 2000 hrs., Yolo and Napa County Sheriff's Offices are responding with the requested resources. Update: 02/11/2016, 1707 hrs., BCSO is requesting to extend the mission as follows: they will hold over the HRD K-9's from 2/10 and are requesting one additional K-9 team for Friday. The Cal OES Law Branch K-9 Coordinator secured the requested resources. **Mission Ongoing.**
- **2016-LAW-21292, 02/08/16, 1630 hrs.**, Solano County Sheriff's Office (SCSO) is requesting resources to assist in locating a missing person. M/P is a fisherman that went missing on 1/23/16 as a result of a possible fishing accident. SCSO is requesting (3) Water type HRD search dog teams. This search will take place on Tuesday, 01/09/16 at 0830 hrs. California Governor's Office of Emergency Services, Law Enforcement Branch is Coordinating the search dog team response. Update: 02/10/16, 0830 hrs., the search will continue today and possibly tomorrow. Update: 02/11/16, 1625 hrs. SCSO is requesting 1-2 additional Water Certified HRD K-9 teams for Friday. The Cal OES Law Branch K-9 Coordinator secured the requested resources. **Mission Ongoing.**

California Specialized Training Institute

CSTI Scheduled Training

Basic PIO and JIC/JIS (G290-291): This course is the first in a three part series of Public Information Officer Basic training. The course is designed for people who work with the media in times of crisis and day-to-day media relations. The program emphasizes the importance of developing a Public Information Officer (PIO) team, communications skills, leadership and working in a Joint Information Center using Joint Information Systems.

Participants engage in public speaking exercises and media interview sessions. Classroom and breakout sessions are information intensive and are designed to help participants apply principles and techniques taught in the discussions. Participants will work with representatives from the media and other agencies involved in crisis communications. The class includes certification in the FEMA Basic Public Information Officer Course (G290) and JIC/JIS (G291) courses.

Course Length: 32 hours
